

Renew School Questionnaire WP3

In WP3 we are interested in the financial and cooperation models which are used in school renovation projects. We will assess

- the financial aspects
- the contractual relations
- the work order
- communication aspects

The collected data is strictly confidential and anonymous, in accordance with the law on privacy.

This questionnaire will take about 40 minutes of your time.

How to fill in this questionnaire?

- To gather the right answers it's recommended to have a personal interview with the architect (or planner), projectmanager (or owner and investor) and the main contractor. The interviews can be done with all parties together or separate. Questions 5 until 18 are typical questions for school owners only.
- It is important to mention positive and negative experiences about the applied solutions.
- Click on 'next' to go forward, and 'previous' to go backwards.
- The answers will be registrated immediatly. You can leave the webbrowser always without progressing.
- A progress bar will allow you to know how far you are in the survey.

If you have questions, you can always send a message to stefan.vanloon@passiefhuisplatform.be or give a call at +32 473 68 98 22

We thank you for your participation!

*1. Contact information of interviewee

Name:	<input type="text"/>
Company:	<input type="text"/>
E-mailadress:	<input type="text"/>
Phone:	<input type="text"/>

*2. I fill in this questionnaire for...

- one of the selected frontrunner projects
- the conventional practice in my region/country

*3. Function of the interviewee.

- School owner
- Facility manager of the school
- Project coordinator
- Architect
- Main contractor
- Other

Other (describe)

*4. For which project do you fill in this questionnaire?

- Romsdal Secondary School, Norway
- Søreide Primary School, Norway
- Risør Technical College, Norway
- Bacsippans Preschool, Sweden
- School Zonnekind, Kalmthout, Belgium
- School CVO Heusden-Zolder, Belgium
- Detmold Vocational College, Germany
- Schwanenstadt, Austria
- Rainbach, Austria
- St.Leonhard, Austria
- Neumarkt, Austria
- Tišina kindergarten, Slovenia
- Lavrica kindergarten, Slovenia
- Kekec kindergarten, Slovenia
- Storžek kindergarten, Slovenia
- Siemianowice, Poland
- Kirkebjerg, Denmark
- Vibengen, Denmark
- Capriva del Friuli kindergarten, Italy

Renew School Questionnaire WP3

5. What was/were the main reason(s) to renovate?

- Degradation of components or installations
- Improve thermal comfort in winter
- Improve thermal comfort in summer
- Improve visual comfort (daylighting/shading)
- Improve air quality
- Improve acoustical performance
- Availability of a funding opportunity or grant application limited in time
- Energy cost
- Image of the school
- Environmental awareness
- Others

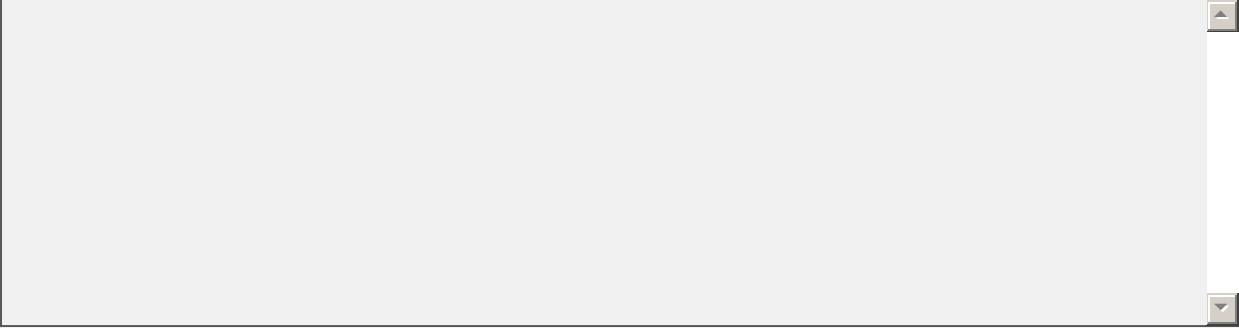

Others (explain)

6. Was a “rebuild”(instead of renovation) ever been considered?

- yes
- no
- not applicable

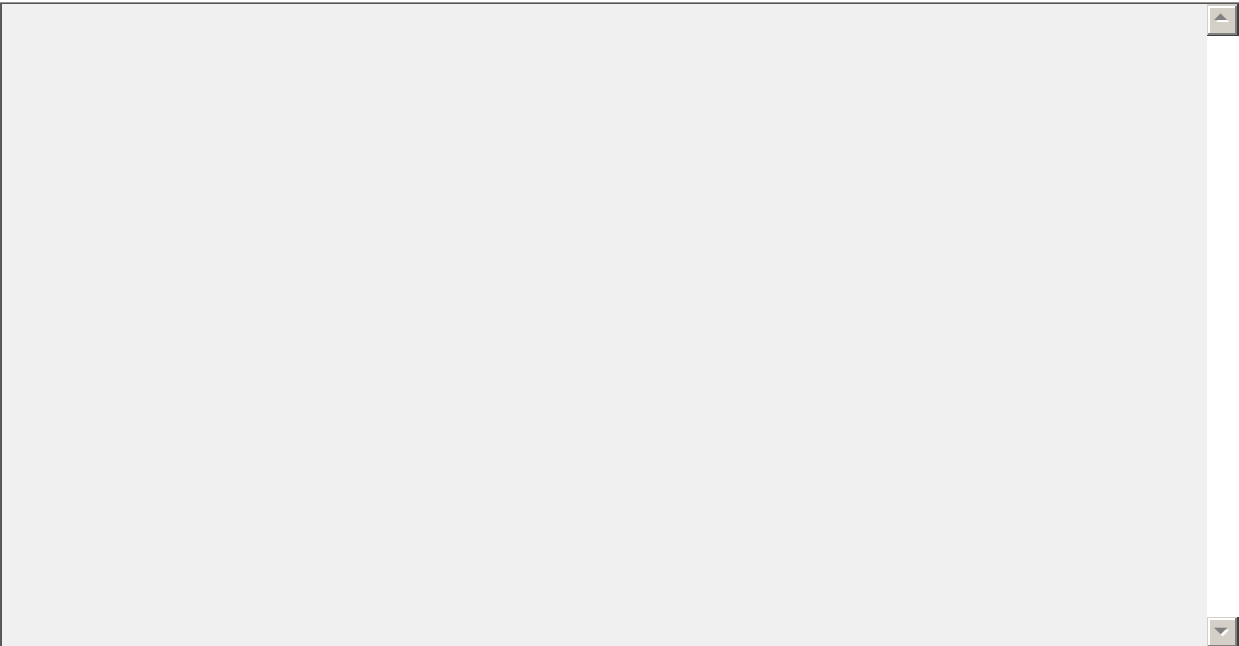

7. What were the reasons to choose for using prefabricated modules?

8. Who and what had a decisive role in the decision process?

A large, empty rectangular text box with a light gray background and a thin black border. It has a vertical scrollbar on the right side, indicating it is a scrollable area for text input.

9. How does the school pay its energy bills? (Possibly different before and after the renovation.)

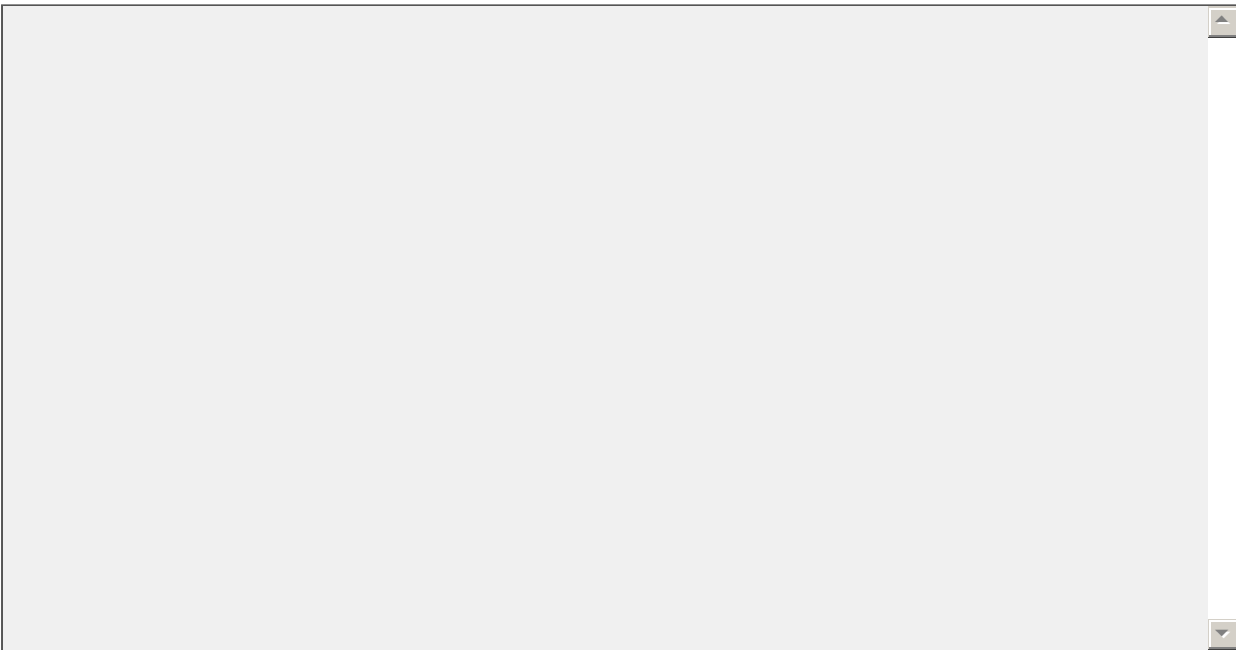

For example: Before renovation the school payed their energy bills out of the general operating budget. This operating budget is a fixed amount per pupil given by the government. After the renovation the energy bills are payed by a DBFM-company. (DBFM = Design, Build, Finance and Maintenance). This company is responsible for the building during 30 years after completion.

A large, empty rectangular text box with a light gray background and a thin black border. It has a vertical scrollbar on the right side, indicating it is a scrollable area for text input.

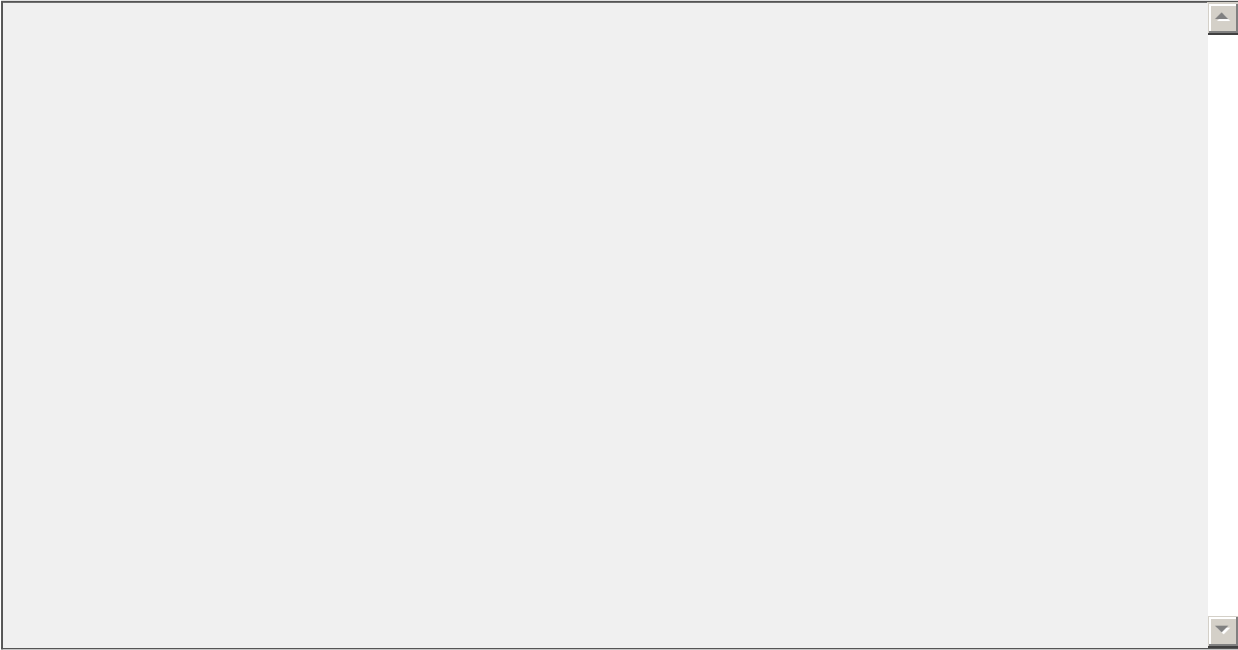

10. Which financing tools/mechanisms were finally USED to finance the construction of the school?

- funds
- guarantees or surety
- (preferential) loan programs
- Grants
- Third party financing
- Trading (certificates)
- Tax Rebates
- Tax deductions
- VAT reductions
- Esco (energy service company)

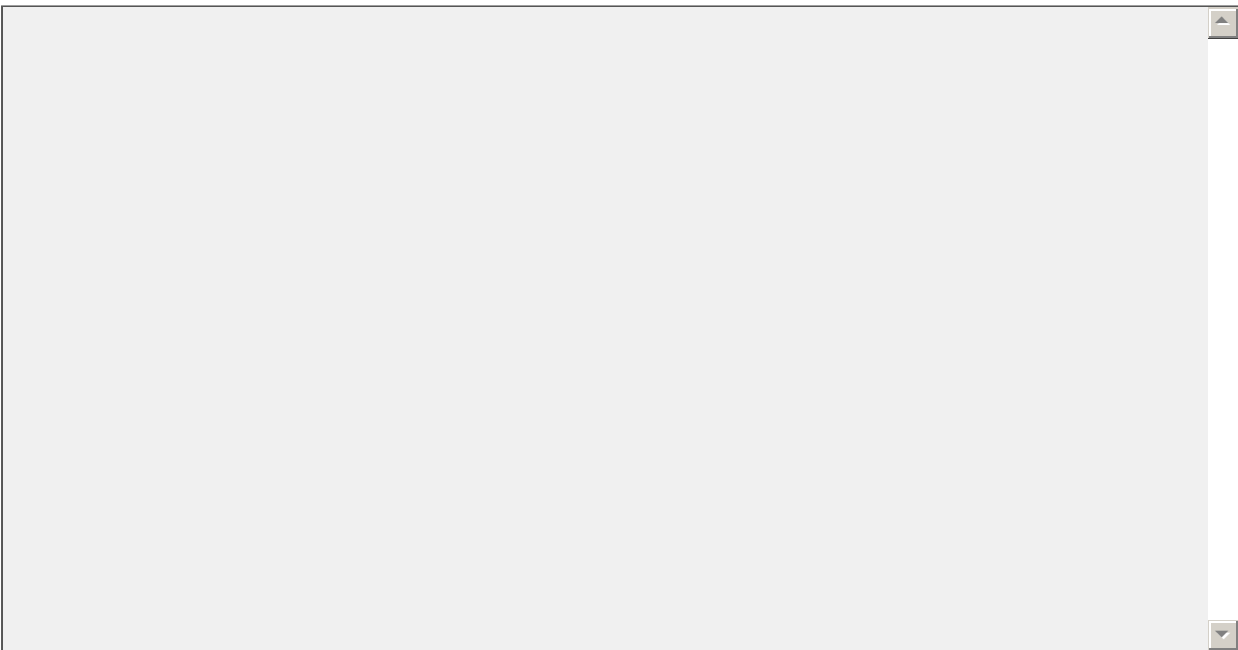

Please describe it in detail:

A large, empty rectangular text area for providing details about the financing tools used. The area is light gray and has a vertical scrollbar on the right side, indicating it is a scrollable text field.

11. Why was finally chosen for the used financing tools/mechanisms?

A large, empty rectangular text box with a light gray background and a thin black border. It is intended for the user to provide an answer to question 11. There are small upward and downward arrow icons in the top-right and bottom-right corners, respectively, indicating it is a scrollable area.

12. What are the positive and negative experiences with the used financing model? Do you have suggestions to improve this?

A large, empty rectangular text box with a light gray background and a thin black border. It is intended for the user to provide an answer to question 12. There are small upward and downward arrow icons in the top-right and bottom-right corners, respectively, indicating it is a scrollable area.

Other 3

Other 4

Other 5

14. Were there energetic energy performance conditions linked to?

- Yes
- No
- No idea

If yes, please describe

15. Were there other important conditions (Indoor air comfort, thermal comfort, visual comfort, ...) linked to it?

- Yes
- No
- No idea

If yes, please describe

16. Which sources of capital were used and what was their contribution (amount)?

National government	<input type="text"/>
Regional government (region)	<input type="text"/>
Region government (province)	<input type="text"/>
Region government (municipality)	<input type="text"/>
Building owner	<input type="text"/>
Building occupier	<input type="text"/>
Building contractor	<input type="text"/>
Bank	<input type="text"/>
Energy supplier	<input type="text"/>
Energy distributor	<input type="text"/>
Energy service company	<input type="text"/>
Other (describe)	<input type="text"/>

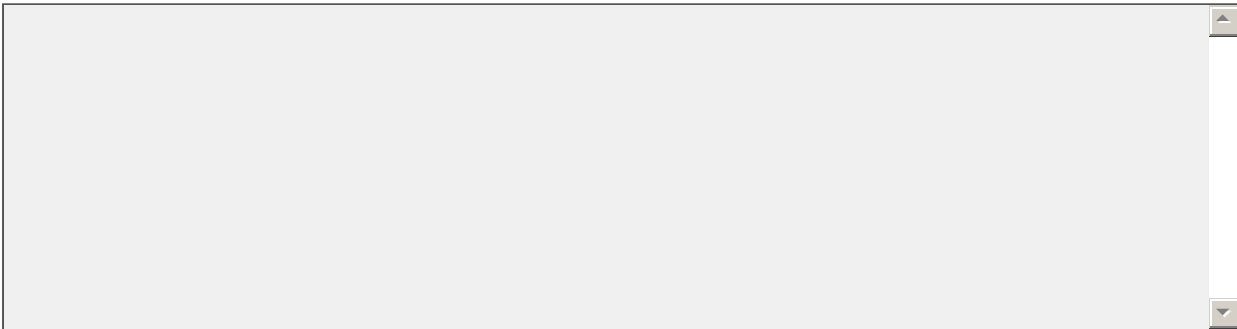

17. Impact of the renovation costs

For how many pupils was the building designed before renovation?	<input type="text"/>
What was the budget for education per pupil before renovation?	<input type="text"/>
Yearly budget for maintaining this building before renovation?	<input type="text"/>
Yearly energy expenses before renovation?	<input type="text"/>
For how many pupils was the building designed after renovation?	<input type="text"/>
What is the budget for education per pupil after renovation?	<input type="text"/>
Yearly budget for maintaining this building after renovation?	<input type="text"/>
Yearly energy expenses after renovation?	<input type="text"/>

18. How were the tenders evaluated?

- investment cost
- operating cost
- life cycle cost
- experience of the tenderer
- methodology
- quality
- technical ...merit
- CO2-emissions
- other

Explain more in detail

19. What was “off-site” integrated in the prefabricated walls?

- Insulation
- Airtightness-measures
- Window frames
- Glazing
- Ventilation ducts
- Ventilation equipment
- Heating pipes
- Sanitary water pipes
- Rain water pipes
- Cooling pipes
- Electricity
- Photovoltaics
- Thermal solar collector
- Other 1
- Other 2
- Other 3
- Other 4

Other(s) (Specify)

Renew School Questionnaire WP3

21. Give a chronological overview/description of the building process actions?

(Preparation, preliminary design, contract planning team, design, cost calculation, planning to get building permit, detailed planning, tendering, cost statement, contract main contractor, design freeze , production planning prefab, on-site preparation for renewables and prefab elements, Off-site prefabrication in fabrication hall, standard on-site construction work, installation of prefab elements on-site, completion, maintenance)

A large, empty rectangular text box with a light gray background and a thin black border. It is intended for the user to provide a chronological overview of the building process actions. A vertical scrollbar is visible on the right side of the box.

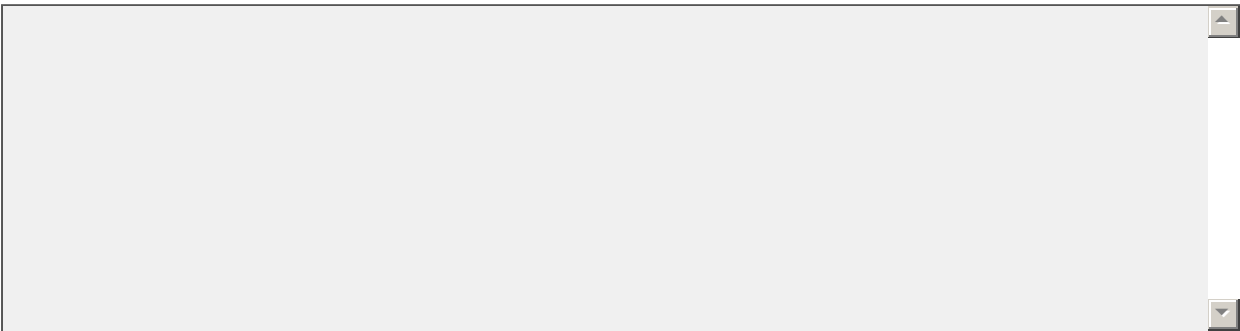

22. Do you have any suggestions to improve the sharing of information and resources in future projects?

A large, empty rectangular text box with a light gray background and a thin black border. It is intended for the user to provide suggestions for improving information and resource sharing. A vertical scrollbar is visible on the right side of the box.

23. Who initiated the idea of prefab construction and in which phase was that?

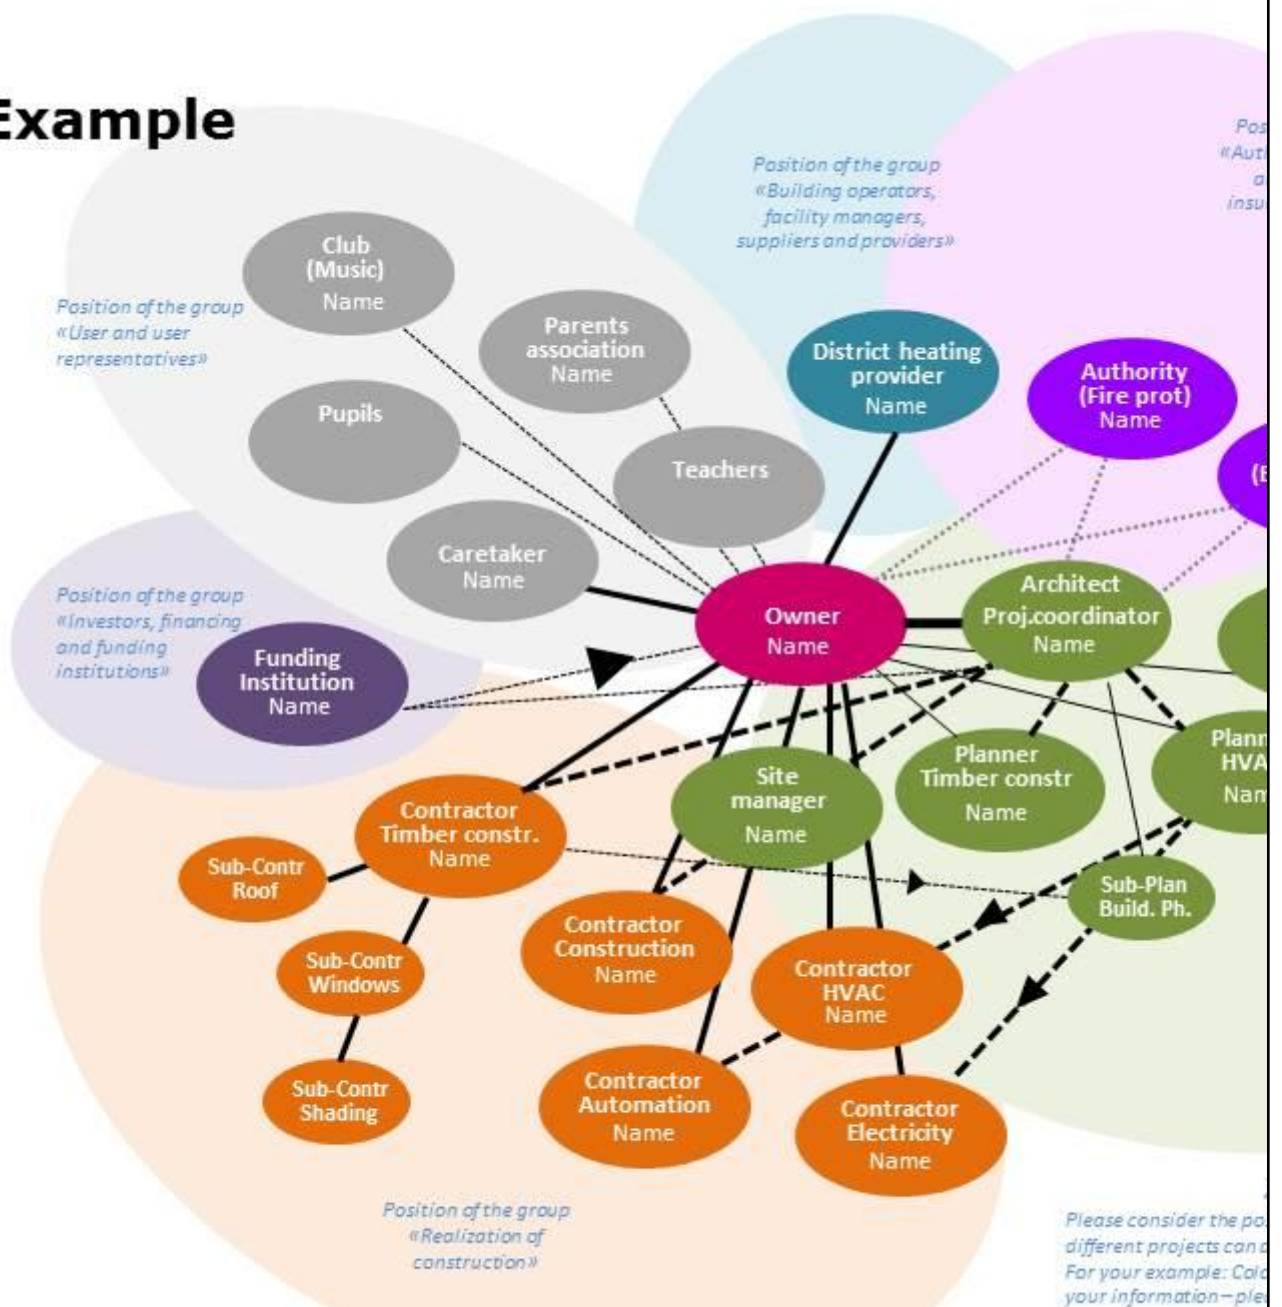

A large, empty rectangular text input box with a light gray background and a thin black border. On the right side, there is a vertical scrollbar with a small upward-pointing arrow at the top and a downward-pointing arrow at the bottom.

24. Were/Are there any legal constraints that impede high energy efficient and/or prefab construction solutions?

A large, empty rectangular text input box with a light gray background and a thin black border. On the right side, there is a vertical scrollbar with a small upward-pointing arrow at the top and a downward-pointing arrow at the bottom.

The next question is about the cooperation models. See some example below and the powerpoint-file. Instead of answering the next 3 questions it is recommended to draw the cooperation model directly in the powerpoint-file which was recently distributed to you. Questions to ask are: Which parties had a contractual relation? Which parties had communication (bidirectional) with each other? Degree of communication? Between which parties there was an information flow? Degree of information flow? Were there influences of legal requirements between the parties?

Example

Renew School Questionnaire WP3

25. Cooperation model: Please indicate which links (contract, communication, information, legal requirements) there were between OWNER and the different involved parties.

	contract type = performance contract	contract type = funding commitment	intensive communication (bidirectional)	moderate communication (bidirectional)	little communication (bidirectional)	intensive information input	moderate information input	low information input	influenced by legal requirements

28. How do you think the cooperation between partners could have been better?'

A large, empty text area with a light gray background and a thin black border. On the right side, there is a vertical scrollbar with a small upward-pointing triangle at the top and a downward-pointing triangle at the bottom.

29. Which optimizations are still possible to have a better unburdening?

A large, empty text area with a light gray background and a thin black border. On the right side, there is a vertical scrollbar with a small upward-pointing triangle at the top and a downward-pointing triangle at the bottom.

30. Were certain responsibilities defined in the contractual relation? Please explain

A large, empty text area with a light gray background and a thin black border. On the right side, there is a vertical scrollbar with a small upward-pointing triangle at the top and a downward-pointing triangle at the bottom.

31. I confirm my answers

- I confirm
- No

The following questions should be asked at people who have a good insight in school building projects in their region/country.

***32. The answers that I give are applicable for**

- Austria
- Belgium
- Denmark
- Germany
- Italy
- Norway
- Poland
- Slovenia
- Sweden

If only applicable for a certain region (please describe)

34. Explain how school renovation projects are financed most of the time.

35. What are the positive and negative experiences of the most common used financing models? Do you have suggestions to improve this?

36. How do schools pay their energy bills? (Possibly different before and after the renovation.)

For example: Before renovation the school payed their energy bills out of the general operating budget. This operating budget is a fixed amount per pupil given by the government. After the renovation the energy bills are payed by a DBFM-company. (DBFM = Design, Build, Finance and Maintenance). This company is responsible for the building during 30 years after completion.

**37. Which legal responsibilities has every party in the standard renovation process?
(f.e. What happens in case hidden defects are detected after some years?)**
